The lagoon extends over max. 4km and fills depending on the tides of the ● full moon and ○ new moon phases – the mentioned heights refer to the deepest points of the lagoon. Wind statistic: The information is based on wind strength that last at least three hours a day and are averages from daily measurement since 1985. The temperatures are averages from daily values (www.wetteronline.de).

All values are subject to variation depending on the natural circumstances.
